"Red and black fruits, new leather, graphite, and some floral notes all define the aromatics, and it's medium to full-bodied, beautifully balanced, layered, and has a great finish.." – Jeb Dunnuck

" ... a mix of red and black cherries accented by vanilla and cedar. It's medium to full-bodied, perhaps a bit more classically restrained on the palate than the flashier 2022, but it still has a wonderfully velvety texture, ample length and freshness on the finish ,, plenty of vanilla and spice shadings to balance the cherry fruit. Full-bodied and velvety textured, it offers plenty of pleasure ..." – Joe Czerwinski
